GYMKHANA OF INFANTRY REGIMENTS SOCIAL EVENT OF THE COMING WEEK

NTEREST socially is centered on to the Gymkhana of the two intantry regiments, the sixth and the 16th, which will be held Sunday afternoon at the camps, and will be the main social uffair for the coming week. I is certain to be a very poputimest, as the attraction that military iniform and military title have is undisputed, and any social event given by the army is bound to plenar, so the Gymkiana sports Sunday afternoon will be the magnet to attract a large number of society folk to the military camps among the cacti and sand of Cotton addition. lar event with El Paso's social con-

with the exception of this event, outfook for the social week preis the urual number of informal schools and card parties, but the dullness and card parties, but the dullness the preceding aceks continues to meate the social world. Even with church socialise there is less acty than usual, and everything in entertaining line is characterized by smallty.

the entertaining line is characterized by informality.

Miss Valies Valeria Garrard will entertain the Army Bridgo club on Monday morning, at her home in Fort Hiss On Tuesday Mrs. C. H. Ladd will be hestess at a pleasant little affair, complimentary to Mrs. M. Young, who is visiting her daughter, Mrs. C. N. Barnay. On Tuesday Mrs. George W. Sharp will ontertain the A. L. A. club of Highland Park. On Thursday Mrs. Myra Abbott will be the hestess for the Silent Twelve card club and Mrs. L. D. Hallum will entertain the Thursday afternoon bridge club, and there will be the weekly dansant at the Home Mrs. G. W. Sharp The P. U. club is pianning an informal little dance for some evening during the week, but the day has not been definitely set.

There will be the usual impromptu plenics and evening rides among the younger set, but on the whole seelal El Pasc will take life in a very leisgreed and restful manner during the keming week.

chine, Lieut. Porte also discarded his
first projected route. He now intends
to divide the flight into three legs.
The first of them about 1,200 miles,
will earry him from Newloundland to
the Asores. In the Arores or Western
islands, he has three oil and gasoline
stations—at Piores. Horta, on the laland of Fayal, and Foota Deigada. If
forced to come down at either of the
first named he will take aboard necestary supplies and fly on to Ponta Deicada, where John Lawling Callan will
meet the Amsrica with a tug, plenty
of oil and fuel, extra parts and all
facilities for repairs. Here, too, Callan may take the place of George E. A
Hallett as Licut. Porte's companion in
the America.

stations—at Forces; Horta, on the island of Fayal, and Ponta Deigada. If
forced to come down at either of the
first named he will take aboard necesvary supplies and fly on to Ponta Deisada, where John Lawsing Callan will
moset the America with a tug, plenty
of oil and fuel, extra parts and alf
facilities for repairs. Here, too, Caline may take the place of George E. A
Hallett as Licut Portea companion in
the America.

From the Acores to Vizo, Spain, is
about 960 miles. Here the Aera clubs
of Portugal and Spain will cooperate
in expediting the flight. The last less
is about 515 miles from Vigo to Pigmouth, England. Bucking into head
winds, this may prove the meet difficult part of the fourney.

Has Sleeping Compartment.
In the cabin is a place to sleep neatly at full length-head under the aviator's seat, feef between the gazoline tanks. So stable is the great filer that Mr. Hallett can climb shout the wings making minor repairs without danger of unsatting the craft.
The hull is fitted with aix tanks containing 200 gallons of fuel, the gazoline being pumped to a feed tank underneath the top plane between the engines by a pump which the wind operates. Has Sleeping Compartment.

dericath the top plane between the engines by a pump which the wind operates.

The cabin is fitted with instruments for registering the propeller revolutions, the drift, the height, the direction and several other things. The question of reckoning is one of the most serious with which the aviators have to contend. The compasses are specially designed for use in a flying boot. No from or steel is used in the interior cation fittings, so as not to affect the magnetic needle. The control wires are bronze.

Stort Absent August 5.

The sturt may be deligred until August 5, when there is a full moon, or it may be earlier. The weather bureau at Washington will give special care to letting Librat Porte know when conditions over the occan are expecially favorable. It was originally planned to start at midnight, but now Lieut. Porte figures on leaving at dawn. This is because government plot charts indicate that on 63 to 85 percent of the days at this meason the ocean for many miles around Newfoundinad is enveloped in a thick for It will find the for area and Lieut. Porte wishes to do this by daylight.

The flying boat's trip is laid between two English ports and it is captained by a Strillen aublect. But it will find the flag of the United States and the pennant of the Aero Club of America.

This is because it is an American elificing and a member of the Aero Club of America.

NEED GLASSES? ASK SEGALL

EYE STRAIN

is the invariable result of neglected defects of sight. In the involuntary effort to obtain distinct vision a severe strain is caused to the muscles of the eye. Headaches of a peculiarly painful kind result, which can only be relieved by resting the eyes.

But many other nervous derangements are traceable to the eyes. The only real cure for such troubles is often found to be correct Glasses. We adapt glasses which accurately compensate for all eye defects and which thus remove all strain. Bear in mind that the sight often seems good when eye strain exists. Have your eyes carefully tested.
